Application/Control Number: 09/833,314

Art Unit: 1761

Upon reconsideration, and in view of the patenting of application 09/230622 as US Patent No. 6,582,740 and application 10/035,691 as US Patent No. 6,692,787, which patents have claims which are considered to be obvious variants of the claims in this pending application, and the fact there is yet another copending application, S.N. 09/230623, which also has claims which are considered to be obvious variants of the claims in this pending application, obvious double patenting rejections are warranted and necessary. Therefore, the Final Rejection mailed 2/9/04 is hereby withdrawn and a new, non-final action follows.

Claims 1-17 are rejected under 35 USC 103(a) as being unpatentable over May et al (WO '219) in view of Quaker Oats (GB '351) and Bechtel ('847), further in view of Gutmann ('199), Froebel et al (GB '125), Zitin ('095), Dodge et al ('712) and Vickers (GB'760), further in view of Ohba (Ep '252), Henkel (GB '634), Mandanas (WO '606), Routh ('901), McMahan (GB '351), Errass (Ep '046), Hillebrand (Austral. '797/96), QP Corp (Jp'677), and QPCorp (Jp '174), for the reasons fully and clearly detailed in the Office actions mailed 2/9/04, 6/3/03 and 11/14/02.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Application/Control Number: 09/833,314

Art Unit: 1761

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-8 and 11-17 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 of U.S. Patent No. 6,582,740 in view of Vickers(GB341,760), Froebel(GB2,194,125), Dodge et al(3,385,712), and Zitin(2,937,095) who teach it would have been obvious to employ an outer phase and an inner core.

Claims 1-8 and 11-17 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-9 of copending Application No. S.N. 09/230623 in view of Vickers('760), Froebel('125), Dodge et al('712) and Zitin('095) for the reasons given above.

Claims 9 and 10 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 10 of copending Application No. 09/230623 in view of Vickers('760), Froebel('125), Dodge et al('712) and Zitin('095) for the reasons given above.

Claims 9 and 10 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 2 of U.S. Patent No. 6,692,787 in view of Vickers('760), Froebel('125), Dodge et al('712) and Zitin('095) for the reasons given above.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven L Weinstein whose telephone number is (571)

272-1410. The examiner can normally be reached on Monday-Friday 7:00am to 3:30

pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Milton Cano can be reached on (571) 272-1398. The fax phone number for

the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
